9037180350 | bharathys34g@gmail.com | Bengaluru, Karnataka

Summary

Experienced Angular Developer skilled in improving applications and crafting user-friendly features. Proficient in Angular, HTML, CSS, JavaScript, and Typescript, with a proven record of delivering clean, maintainable code. Dedicated to ongoing learning and achieving high-quality results.

Experience

iMedrix Systems Pvt Ltd | Bengaluru, karnataka

Software Engineer | 11/2021 – 06/2024

Roles and Responsibilities

Designed and developed features for web applications using Angular, HTML, CSS, and Typescript. Wrote clean, easy-to-maintain code following industry standards. Ensured web application performance, scalability, and security through best practices. Worked closely with diverse teams, turning business needs into technical specs.

Improved existing web applications by adding new features and functionalities. Emphasized software development best practices for delivering quality solutions. Addressing reported bugs identified by testers. Manual testing activities to ensure software quality.

Efficiently set up Angular projects and showcased proficiency in essential SQL operations.

Achievements

Worked on a key project that significantly improved the user experience, earning positive feedback from users. Successfully resolved complex bugs, showcasing problem-solving skills and attention to detail.

Helped onboard new team members, providing support, and contributing to a positive team environment. Actively participated in code reviews, improving coding skills through feedback and collaboration.

Stayed updated with the latest technologies and best practices by attending training sessions.

Projects

iMedrix UI3 (Web Application)

11/2021 - 06/2024

Developed and maintained a web application enabling efficient access to patient details. Continuously added new features to enhance functionality and user experience in a secure way.

Technologies Used: HTML, CSS, TypeScript, Angular (Version 7).

iMedrix UI3 Admin (Web Application)

11/2021 - 06/2024

Implemented new features in the web application, resulting in improved functionality of the CardioScreen application. These enhancements positively impacted the efficiency of the CardioScreen system.

Technologies Used: HTML, CSS, TypeScript, Angular (Version 7).

KardioScreen (Mobile Application)

11/2021 - 06/2024

The app allows users to record ECGs with minimal supervision, in less than 30 seconds and store them in the cloud. Improved the functionality of KardioScreen by adding new features in the iMedrix UI3 Admin web application.

Technologies Used: HTML, CSS, TypeScript, Angular (Version 7).

Skills

Angular, JavaScript, TypeScript, HTML, CSS, Responsive Design, Unit Testing, Manual Testing, Power BI Dashboard
